

INTIMIDATOR

Service Grade

1

Constraint Layered Shims:

Engineered to dampen vibration, a steel shim with a rubber coating is attached to each pad.

2

Dependable Formulations:

Semi-metallic and ceramic formulas that provide smooth braking characteristics and strong rotor life.

3

Slotting and Chamfering:

Matched to OE design, slots and chamfer are utilized for continued performance and noise-free braking

4

Attaching Hardware:

Piston clips, hold-down clips, and wear sensors are securely riveted onto all necessary applications.

DURABLE QUALITY...CONSISTENT PERFORMANCE.
