

ProQuiet

PROFESSIONAL
GRADE

1

Application Specific Formulations:

ProQuiet matches the OE formula for each application. Whether it be ceramic or semi-metallic, the proper complement of material is in the box.... Guaranteed.

2

Multi-layered Constraint Shims:

Dampening levels of rubber, steel, and other specially engineered materials add to control NVH (Noise/Vibration/Harshness). Each shim is either staked on or secured with wrap around clips.

3

Caliper Abutment Hardware:

Premium clips and springs ensure proper fitment, reduce opportunities for vibration, and provide even braking application.

4

Slotting and Chamfering:

Matched to the design, friction slots and chamfering deliver the same smoothness and noise elimination as the OE.
