## Volvo VN-VHD Series Heavy-Duty Vehicle Clutch Hydraulics

AMS Automotive is pleased to offer industry-leading coverage of OEM quality clutch master and slave cylinders for various 1997-later Class 8 Volvo VN-VHD series Heavy Duty truck applications.

Each master and slave cylinder is engineered to meet or exceed OEM specifications and manufactured under the highest quality standards. Every clutch master and slave cylinder matches original equipment parts in quality, configuration and fitment.

The following table (sorted by AMS number) provides application details needed to correctly match the correct clutch master and slave cylinder to desired application.

**M6801**

**S6801**

**S6802**

**S6803**

AMS Number	Reference Number	Description	Application Reference
M6801	8085690	Master Cylinder	VN-VHD Volvo Truck
S6801	8089526	Slave Cylinder	VN-VHD Volvo Truck
S6802	8089680	Slave Cylinder	VN-VHD Volvo Truck
S6803	20458737	Slave Cylinder	VN-VHD Volvo Truck

**Note:**

Preloaded hydraulic systems do not have free pedal, therefore, the position of the cab pedal is not indicative of when clutch adjustment is required.
