## Select Engineered (SE) Premium New Clutch Kits

AMS Automotive is pleased to announce increased coverage of Select Engineered (SE) Premium New Clutch Kits. Originally introduced in 2006, SE Kits are designed to address the growing import market by providing the professional technician with identical OEM or OES fit, form, and function.

The SE Kit program leads the industry in terms of OEM/OES coverage, with 59 sku's accounting for over two-thirds (2/3) of total import clutch sales. Some older import applications are not included in the SE kit program because they were deemed cost prohibitive due to the age and value of the vehicle. Other import applications already receive the exact OEM/OES components in our standard-duty kit. More kits will be added to meet future demand.

All SE kits are designated with an SE suffix added to the standard-duty kit number (i.e. 08-022SE).

### Features

- Guaranteed OEM/OES fit, form, and function
- 100% rigorously tested to meet/exceed tolerance and performance requirements for the particular vehicle application
- Includes detailed technical bulletins and installation instructions
- 5-piece kit contains all the necessary components in one package
- 12-month, 12,000 mile comprehensive warranty
- Toll-free technical assistance from ASE certified technicians

### Benefits

- Optimum performance and lasting durability with every clutch installation
- Precision-matched for flawless functionality with the other driveline components
- Smooth and clean engagement with no noise or vibration
- Satisfied customers

As a reminder, "SELL THE SYSTEM" by replacing the master/slave cylinder, cable/fork, and flywheel with reliable new units from AMS Automotive
